Notice of Consent Decree—2006 Calcasieu River Oil Spill

Action: Notice of Availability of a Consent Decree (CD) for Natural Resource Damages – LOSCO NRDA case file # LA2006_0621_0846. The CD for Natural Resource Damages is available for public review and comment for 30 days.

Agencies: Louisiana Oil Spill Coordinator's Office, Department of Public Safety and Corrections (LOSOC); Louisiana Department of Environmental Quality (LDEQ); Louisiana Department of Natural Resources (LDNR); Louisiana Department of Wildlife and Fisheries (LDWF); Louisiana Coastal Protection and Restoration Authority

(CPRA); the United States Department of the Interior, represented by the United States Fish and Wildlife Service (USFWS); and the United States Department of Commerce, represented by the National Oceanic and Atmospheric Administration (NOAA); collectively referred to herein as the "Trustees."

Authorities: The Oil Pollution Act of 1990 (OPA), 33 U.S.C. 2701 et seq., and the Louisiana Oil Spill Prevention and Response Act of 1991 (OSPRA), La. R.S. 30:2451 et seq., are the principal federal and state statutes, respectively, authorizing federal and state agencies and tribal officials to act as natural resource trustees for the recovery of damages for injuries to trust resources and services resulting from oil spill incidents in Louisiana. OPA implementing regulations may be found at 15 C.F.R. Part 990 and OSPRA regulations at LAC 43:XXIX. In accordance with OPA, OSPRA, and the regulations, the Trustees have conducted a Natural Resource Damage Assessment (NRDA) for the 2006 oil discharge into the lower Calcasieu River estuary, approximately eight miles south-southwest of Lake Charles, Louisiana, in Calcasieu Parish (Incident). Citgo Petroleum Corporation (CITGO) was identified as the Responsible Party for the Incident.

Summary of Incident: On June 19, 2006, the Trustees were notified of a discharge of waste oil, oily wastewater, and oily sludge caused by the overflow from two stormwater tanks at CITGO's Lake Charles Manufacturing Complex located along the Calcasieu River in the lower Calcasieu River estuary in Calcasieu Parish. An estimated 54,000 barrels (bbl) of waste oil as well as a significant volume of wastewater were discharged into the Indian Marais and ultimately into the Calcasieu River and downstream receiving waters and adjacent marshes, including Prien Lake, Moss Lake, Calcasieu Lake, and the Gulf Intracoastal Waterway. The discharge affected over 155 miles of shoreline along the Calcasieu River and associated waterbodies. The high toxicity of the waste oil led to substantial ecological effects. Based on information collected during the response and the NRDA process, the NRDA Trustees determined that the Incident caused injuries to marsh habitat, shallow subtidal and intertidal habitat, water column organisms, birds, and recreational human use. The Trustees and CITGO worked cooperatively to evaluate and quantify the nature and extent of injuries to natural resources and services, and to determine the need for, type of, and scale of appropriate restoration actions. The Trustees issued a Notice of Intent in the October 2014 edition of the *Louisiana Register* (Vol. 40, No. 10, pp. 2170-2172) to notify the public that they intended to conduct restoration planning for this Incident.

Purpose: Pursuant to LAC 43:XXIX, notice is hereby given that a proposed CD between the United States, the State of Louisiana, and CITGO is available for public review and comment. The Trustees and CITGO propose to expedite restoration for this Incident and to resolve CITGO's liability for natural resource damages under Section 1002(a) and (b) of OPA, 33 U.S.C. § 2702(a) and (b), and Section 2480 of OSPRA, La. R.S. 30:2480. By entering into this CD, the mutual objectives of the Parties are for CITGO (i) to provide funding to the Trustees for the restoration, replacement, or acquisition of the equivalent of natural resources and

services allegedly injured, destroyed, or lost as a result of the Incident; (ii) to reimburse the remaining unpaid natural resource damage assessment and restoration planning costs incurred by the Trustees; and (iii) to resolve its alleged civil liability for natural resource damages under OPA and OSPRA.

The CD is available to the public for a 30-day comment period, which will begin on the date of this public notice announcing availability of the document for public review. The Trustees invite the public to review the CD and submit comments to the address listed below. The Parties will consider comments received during the public comment period on the CD before finalizing the document.

Public Participation: Interested members of the public are invited to view the CD at <http://www.losco.state.la.us> (look under Newsflash/current news for 2006 Calcasieu River Oil Spill Consent Decree Available for Public Comment) or by requesting a copy of the document from Charles K. Armbruster at the following address:

Charles K. Armbruster
Louisiana Oil Spill Coordinator's Office
Department of Public Safety and Corrections
P.O. Box 66614
Baton Rouge, LA 70896
(225) 925-6606
losco@la.gov

Public participation is encouraged. Opportunities to participate in the process include public availability of Administrative Record (AR) documents as well as an opportunity for the public to review and comment on the CD and forthcoming draft restoration planning documents that will identify the Trustees' preferred restoration project(s) for this Incident. The AR can be found at <https://data.losco.org> under "Search Administrative Records". Public participation is consistent with state and federal laws and regulations, including Section 1006 of OPA, 33 U.S.C. § 2706; the OPA regulations, 15 C.F.R. Part 990; Section 2480 of OSPRA, La. R.S. 30:2480; and the OSPRA regulations, LAC 43:XXIX.

Comment Submittals: Comments to the CD must be submitted in writing or digitally to Charles K. Armbruster on or before the end of the 30-day comment period.

For Further Information: Contact Charles K. Armbruster at (225) 925-6606 or by email at losco@la.gov.

Notice of Restoration Plan—2016 Green Canyon
248 Oil Spill

Action: Notice of Availability of a Draft Damage Assessment and Restoration Plan and Environmental Assessment with a 30-day public review and comment period—LOSCO NRDA case file LA2016_0512_0630 (Green Canyon 248 2016).

Agencies: Louisiana Oil Spill Coordinator's Office, Department of Public Safety and Corrections (LOSCO); Louisiana Department of Environmental Quality (LDEQ); Louisiana Department of Natural Resources (LDNR); Louisiana Department of Wildlife and Fisheries (LDWF); Louisiana Coastal Protection and Restoration Authority (CPRA); the United States Department of the Interior (DOI), represented by the U.S. Fish and Wildlife Service (USFWS); and the United States Department of Commerce, represented by the National Oceanic and Atmospheric Administration (NOAA); collectively referred to herein as the "Trustees".

Authorities: The Oil Pollution Act of 1990 (OPA), 33 U.S.C. 2701 et seq., and the Louisiana Oil Spill Prevention and Response Act of 1991 (OSPRA), La. R.S. 30:2451 et seq., are the principal federal and state statutes, respectively, authorizing federal and state agencies and tribal officials to act as natural resource trustees for the recovery of damages for injuries to trust resources and services resulting from oil spill incidents in Louisiana. OPA implementing regulations may be found at 15 C.F.R. Part 990 and OSPRA regulations at LAC 43:XXIX. In accordance with OPA, OSPRA, and the regulations, the Trustees have conducted a Natural Resource Damage Assessment (NRDA) for the May 12, 2016 crude oil discharge into offshore waters of the Gulf of Mexico from the Glider 4 Jumper (pipeline) in Green Canyon Block 248 (Incident). Shell was identified as the Responsible Party for the Incident.

Summary: Pursuant to 15 C.F.R. §§ 990.23, 990.55 and LAC 43:XXIX, Chapter 1, notice is hereby given that a document entitled, "Draft Damage Assessment and Restoration Plan and Environmental Assessment, Shell – Green Canyon Block 248 Oil Spill, NRDA Case File# LA2016_0512_0630 (Green Canyon 248 2016)" (Draft DARP/EA) is available for public review and comment. The Draft DARP/EA identifies the natural resources and services that were determined to be injured by the Incident, describes the assessment procedures used to quantify injury, outlines the scaling approach and restoration alternative selection process, and presents the Trustees' proposed plan to restore natural resources or services equivalent to those lost as a basis for compensating the public for the injuries to natural resources and services resulting from the Incident. The Draft DARP/EA evaluates restoration alternatives that the Trustees considered and identifies the Trustees' preferred restoration alternative, which is a suite of restoration actions including: (1) the Calcasieu Lake & Sabine National Wildlife Refuge Living Shoreline Project; (2) the South Pass Bird Island (MR-172) Project; and (3) Genetic Stock Assessment of Pantropical Spotted Dolphins. After finalization of the Draft DARP/EA, the Trustees will prepare a Final Damage Assessment and Restoration Plan and Environmental Assessment (Final DARP/EA) and make it available to the public.

The Draft DARP/EA is available to the public for a 30-day comment period, which will begin on the date of this public notice announcing availability of the document for public review. The Trustees invite the public to review this document and submit comments to the mailing or email address listed below. The Trustees will consider comments received during the public comment period before finalizing the Final DARP/EA. Public review of the Draft DARP/EA is
